Designation

Executive Engineer

Description of Duties

responsible for Designing and planning, project management, estimating, tendering, quality control and construction/ construction supervision of National Highway roads and bridges, project and their maintenance, repairs, rehabilitations etc. having 1165.00 Km length. Also responsible for examination of soil and sub soil, Engineering Designs, General arrangement drawings and working drawing for all components of bridges. Managed all necessary discussion/ meeting/ sanctioned etc. from MoRT&H New Delhi. The Design were prepared keeping in view various alternative materials and structural arrangements while adopting relevant Indian and other Internationally accepted guidelines and best practices of modern bridges Design, road pavement Design/ construction technology and using CAD software landslide/ rockfall/slope

Whether EPC or PPP or Hybrid Annuity Model

EPC

Designation

Project Manager

Description of Duties

To ensure that the construction of the works are supervised in accordance with established procedures to advise the team leader of comment on contractor quality assurance proposals.The various layer of road such as including earthwork, GSB, WMM and bituminous layers are constructed as per IRC specification. Prepare daily, weekly and monthly progress reports, work plans and detailed survey of road. Preparations of invoice/ bills work, ensure implementation safety and environment protection measure, maintenance of site records and execute the construction work as per drawing and contract agreement. Project is executed on innovative/Nontraditional technology i.e. Noise reducing asphalt & Dust supression. including Landslide Mitigation Measures, slope protection measures in form of foin nailing using rock bolts and other bio engineering solutions to prevent slope failure.
